

100% NATURAL INSECTICIDE AND ACARICIDE

INSECT ELIMINATOR

READY TO USE
LEAVE THEM
NO CHANCE!
100% NATURAL

THE N°1 NATURAL INSECTICIDE

Insect Eliminator

The dual insecticide and repellent properties of Insect Eliminator treat and prevent the return of most crawling and flying insects – thrips, dust-mites, etc. – as well as flies, mosquitoes, wasps, cockroaches, moths, bugs, ants, fleas, weevils, termites, red spiders, etc.

Available in both concentrate or ready to use versions, Insect Eliminator is product that can be used in organic farming by spraying or nebulisation in treatment areas, or inside the home (on woodwork, terraces, cupboards, walls, floors, etc.) and in farm buildings.

Insect Eliminator contains plant extracts and vegetable oils which eliminate and repel flying and crawling insects. It is a non-toxic, biodegradable product perfectly safe for humans and animals. It contains no Pyrethrinoids and no dangerous synthetic pesticides.

After a repellent phase, as the chitin dissolves, it causes gradual drying out and eventual death, more or less quickly, of the insects and dust mites, at all stages of their development (egg, larva or adult).

Insect Eliminator is totally different from other insecticides. It does not bring about any resistance. It is even effective against insects which have built up a resistance to Pyrethrinoids or organophosphorous compounds.

**DO NOT APPLY INSECT ELIMINATOR
DIRECTLY ON TO PLANTS. USE ONLY TO
TREAT THE SURROUNDING AREAS**

Application:

Insect Eliminator ready to use: Shake the bottle well before use.

Insect Eliminator concentrate: Product to be diluted in water (see dose rates on our website).

As soon as harmful insects appear and as a preventive measure: Spray on to the ground, walls, ceiling, cracks, doorframes, pots, plastics, etc. once a week until they disappear completely.

- *Very wide range of activity*
- *Prolonged action*
- *Very safe to use*
- *No negative impact on the environment*
- *100% natural, non-toxic formula*

Composition

Active ingredients of 100% natural origin: Geraniol (essential oil), Coconut Oil.

Insecticide ingredient: Geraniol

Insect Eliminator ready to use:
Liquid solution - Contains:
EC : 203-377-1 Concentration :
9 g/kg

Insect Eliminator concentrate:
Liquid concentrate - Contains:
EC: 203-377-1 Concentration:
300 g/kg
EC: 200-578-6 Concentration:
200 g/kg

This product can be used in organic farming. In compliance with EC regulation no. 834/2007.
