Xtra Roots

Xtra Roots is root bio-activator growth fertiliser with an exclusive formulation based on a combination of highly-assimilable chelated iron (DTPA) and organic substances (plant extracts, marine algae and organic acids). The complex has many compounds that are especially effective for the massive development of healthy roots and strong plant growth.

Xtra Roots has nutrients of exceptional quality that provide considerable energy and optimise the activation of natural defences. These elements act on the physiological functions of the plant by improving hydric and mineral absorption and encouraging exacerbated development of root-hairs and roots. Xtra Roots provides a large number of compounds: polysaccharides, homofucans, stable polyphenolic complexes, pure extract of humic (2%) and fulvic (1%) acids, amino acids and vitamins (C, B1). A cocktail of substances

which act in total synergy for rapid and vigorous root growth.

- Concentrated NF fertiliser (0.25 to 0.5 ml/L), economic and simple to use.
- Stimulates rapid, massive development of root-hairs and healthy roots as well as strong plant growth.
- Activates the natural defences and increases resistance to diseases and stress.
- Revitalises cuttings and stressed young shoots.
- Optimises hydric and mineral absorption.
- Anti-yellowing of cuttings and young shoots. Powerful action on roots, leaves and stem.
- Nutrients of very high quality encouraging the production of enzymes.
- Effective for all types of crop.

email: infos@hydropassion.eu

- **New exclusive formulation.**
- **Contains selected amino acids.**
- **Enriched with vitamin C, B1.**
- **Plant extracts, extract of marine algae.**
- **PURE extract of humic (2%) and fulvic (1%) acids.**

Suitable for

- ✓ Cultivation in soil
- ✓ Hydroponics
- ✓ Aeroponics
- ✓ Foliar spray

Period of use

- ✓ Seeds/Cuttings
- ✓ Growing period
- ✓ Pre-flowering
- ✓ Flowering

Composition

- FERTILIZER NF U 42-002-2
CHELATED IRON (DTPA)
- 0.25% water-soluble iron (Fe), chelated by DTPA
 - Amino acids: Total free amino acids (of short length): 1% (glycine, valine, proline, hydroxyproline, alanine, aspartic acid, arginine, glutamic acid, lysine, leucine, isoleucine, phenylalanine, methionine, serine, asparagine, threonine, cysteine, tyrosine, histidine, tryptophan and glutamine)
 - Vitamin B1: 0,3%
 - Plant extracts: 42%, including 10% seaweed extracts
 - Humiques acid: 2,7%
 - Fulviques acid: 0,5%
 - pH: about 7.5
 - density: about 1.09
